

## DDI Heat Exchangers Inc.

### Another DDI Heat Exchanger Installation

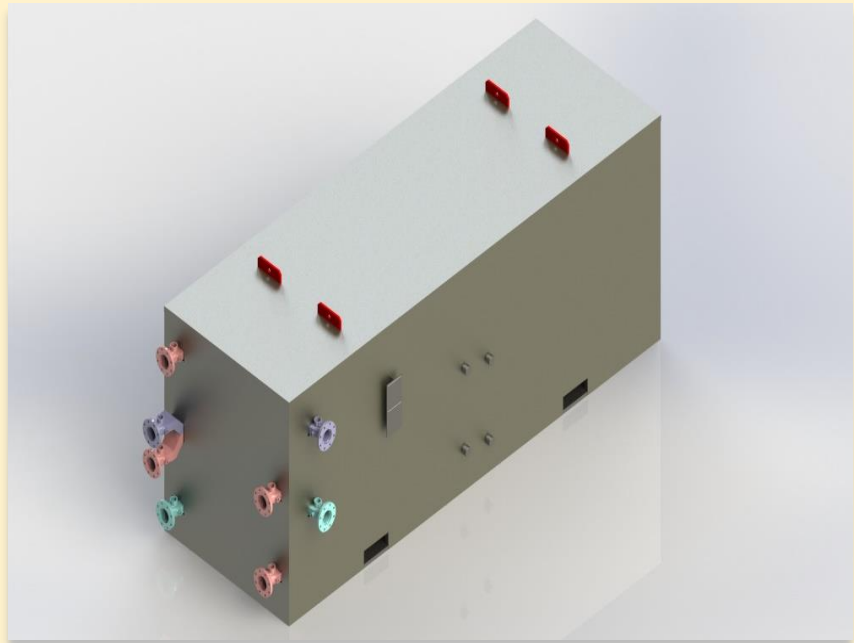

DDI Heat Exchangers Inc. won the contract to supply Waste-to-Water and Waste-to-Waste Heat Exchangers for the new North Shore Wastewater Treatment Plant Project located in North Vancouver, British Columbia, Canada. The Project is being delivered by ACCIONA, a global sustainable infrastructure company with Canadian headquarters in Vancouver, Canada.

Metro Vancouver awarded ACCIONA the contract to design and build the new North Shore Wastewater Treatment Plant to replace the existing primary Lions Gate Wastewater Treatment Plant.
